

Health and Social Care Cambridge Technical Level 3

Overview:

With the demographics in the UK changing rapidly and the population living longer, the health and social care sectors will experience huge growth over the next few years. For those wishing to work in these sectors, our qualifications provide a solid foundation of knowledge, practical skills and experience. A Cambridge Technical in Health and Social Care will not teach you how to look after people but gives you the skills to be able to work within the Health Care sector whether; for example, as a midwife, nursery nurse, carer or within the wider health and social care sector.

Topics Studied:

Mandatory units

- Building positive relationships in health and social care
- Equality, diversity and rights in health and social care
- Health, safety and security in health and social care
- Anatomy and physiology for health and social care

Plus two additional units which may include:

Infection control, supporting people with learning disabilities, nutrition for health, sexual health, reproduction and early development stages

Assessment:

- Unit 1 – internally assessed
- Unit 2 - examination
- Unit 3 - examination
- Unit 4 - examination
- Optional units are internally assessed

Entry Requirements:

Grade 55 in Combined Science or a Grade 5 in Biology (separate science) or a Merit in BTEC Health and Social Care

Specification

[OCR Cambridge Technical Level 3 Health and Social Care](#)

Progression and Career Opportunities:

This course will prepare and equip students who want to go on to study a variety of courses in health and social care e.g. Social Work, occupational therapy, nursing, dentistry and midwifery.
